

Kaynemaile Limited's flagship product, KML22, is a unique, seamless polycarbonate mesh. As well as offering innovative, functional design solutions to the fields of architecture and design, KML22 offers tremendous future potential for a range of commercial and industrial applications that depend on a strong, durable and versatile mesh.

#### Water & Ice

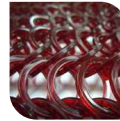

The essence of life.

The purity, clarity and fluidity of water are all the elements of our KML22 Water & Ice range, inspired by New Zealand's snow-topped mountains and crystal clear rivers.

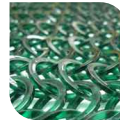

Water - Translucent clear

Ice - Translucent blue

#### Precious Gems & Classic Metallic's

Inspired by deep within New Zealand's islands lay layers of Gems and Metals. The elements of nature expose these precious elements over 100's of years for us to admire.

Ruby - Luscious Red

Greenstone Pounami - Jade

Pewter - Deep silver metallic

#### AS 1530 pt2 REGULATION TEST RESULTS for KML22 PC SEAMLESS MESH; test for flammability of materials

KML22 Achieved a Flammability Index result of (FI)=6. This certifies KML22 for building material use in public places, bars and office buildings. The KML22 mesh is produced from flame resistant Makrolon® polycarbonate. Makrolon® polycarbonate achieved yellow card results – UL94 V-O at 3mm. rated 'self extinguishing'.
